

PubMed Central

PubMed Central

PubMed Central (PMC) is the U.S. National Library of Medicine's free digital archive of biomedical and life sciences journal literature.

PMC serves as a permanent archive, a platform for enriched linking, analysis, and use of research reports and data, and as a source of full-text articles linked to PubMed/MEDLINE citations.

Access to PMC content

- Free access to full-text articles and supporting data
- A journal may delay free access to its content
- Research articles are generally free in a year or less
- Non-research articles may have a delay of 6-24 months depending on the journal
- Full-text searching of current and back issue content via PMC Entrez
- Citations for articles included in PubMed
- Fully integrated with other Entrez databases – sequence data, taxonomy, books, etc.

PMC Includes

- 180 life sciences journals
- Over 382,000 articles, letters, etc.

Add your name to the **PMC News list** to get email notification of new PMC journals and other significant updates.

All journals in PMC provide free access to full text (sometimes on a delayed basis). Some go beyond free, to **Open Access**. Find out what that means.

PMC's **utilities** include an OAI service that provides XML of the full-text of some articles, functions for scripting PMC searches and linking to specific PMC articles from your site, and more ...

Get **answers** to other questions about PubMed Central.

Find out how you can **include your journal in PMC**.

The **NIH Public Access** plan is meant to make the published results of NIH-funded research freely available to everyone.

NIH-funded authors: see the **NIH Manuscript Submission** system.

It's about preservation and access: **digitizing the complete run of back issues** of many of the journals in PMC.

Looking for a thoroughly modern journal article DTD? Take a look at NLM's **Journal Publishing XML DTD and schema**.

PubMed Central Journals — Full List
[Show Tabbed List](#)

The tabbed list includes a tab that shows all New PMC journals.
The full list of PMC journals is also available as a comma-separated-values (CSV) file.
Also available is a set of Entrez Journals Database records for the full PMC journal list.

ISSN	retrieves the Entrez Journals Database record for the journal.						
Title	links to a list of all issues of the journal in PMC. ^(a) means the journal has some or all Open Access articles that are available in PMC immediately, even if the rest of the journal is not yet free or only has PubLink access.						
Latest Volume	links to the most recent issue available in PMC.						
Free Access	says how soon after publication the journal's articles are made free.						
PubLink	indicates that PMC links to the publisher's site for the full text of articles, possibly even for free articles.						
NIHPA Deposit Required	"Yes" means that separate deposit of an author manuscript is needed to satisfy the NIH Public Access policy because PMC only has PubLink access to the journal's research articles. See the NIHPA FAQs for details.						

Search this Journal	ISSN	Title	Volumes in PMC		Free Access	PubLink Access	NIHPA Deposit Required
			Latest	First			
Search	1742-6405	AIDS Research and Therapy ^(a)	v.2 2005	v.1 2004	Immediate		
Search	0002-9297	American Journal of Human Genetics	v.75(6) Dec 2004	v.70 2002	After 6 months		
Search	1083-446X	Amphibian and Reptile Conservation ^(a)	v.3(1) Jan 2004	v.3 2004	Immediate		

PMC Journal Tabbed List

PubMed Central Journals — Tabbed List [Show Full List](#)

Search by part or all of a journal name.
 [Find Journals](#)

New ... tab lists journals added to PMC in the past 60 days.
Title links to a list of **all issues** of the journal in PMC.
Latest Volume links to the **most recent issue** available in PMC.
Free Access says how soon after publication the journal's articles are made free.
